

## HAS A DAY OF REST

Mrs. Bradley Passes Sunday Quietly at Jail.

## VISITED BY HER CHILDREN

Juryman Given the Morning News-papers After All Reference to the Trial Are Carefully Removed—Defense to Attempt to Establish Dead Man's Relations with Prisoner.

Mrs. Bradley, who has been on trial for a week in Criminal Court No. 1, charged with the murder of former Senator Brown, of Utah, passed a fairly restful day at the jail yesterday. Her appetite was better than since the trial began, and Saturday's rest seemed to have done her good.

Her two children, Arthur and Montgomery, spent considerable time with her. They were accompanied by their grandmother, Mrs. Maddison.

The Bradley family passed a quiet day, playing games and reading the Sunday papers. Clerk Hawken was down early in the morning, clipping out all references to the Bradley trial, and when he finished the deputy marshals took the papers upstairs.

## Extra Walk Not Taken.

The jury went out for breakfast about 8:30 o'clock, and returned to the courthouse without taking an extra walk. They went for lunch about 1 o'clock, and had their supper at 6 o'clock. After supper they walked for about an hour, returning to the courthouse about 7:30 o'clock. All had retired by 11 o'clock last night.

The trial will be resumed at 10 o'clock this morning, and the court officers anticipate a larger crowd than has attended the proceedings so far. Attorney Hoover's statement to the jury occupied the closing session on Friday, when adjournment was taken until this morning. His statement of what the defense hoped to prove has intensified interest in the trial.

Beginning to-day the defense will place its witnesses on the stand, and attempt to substantiate the relations that existed between Mrs. Bradley and the dead man, the criminal operations which have been alleged to be performed upon her, and other details. After witnesses from Salt Lake City have testified, and the physicians, Dr. Shute, the jail physician, Dr. H. L. E. Johnson, the specialist, and Dr. E. W. Whitney, of Salt Lake City, who was Mrs. Bradley's physician, have been examined, Mrs. Bradley will go on the stand.

The defense will call as a witness this morning, in addition to those mentioned in The Washington Herald of yesterday, Sergt. Lohman, of the First precinct, who was a witness called by the government.

**Admitted the Shooting.**  
When Mrs. Bradley was taken to the First precinct station by Policemen Lamb and Emmett she was arraigned before Sergt. Lohman. When he took the stand for the government Lohman testified Mrs. Bradley had admitted shooting Senator

Brown, of Utah, but declined to give her name or furnish any information concerning herself. His testimony was not considered as damaging to the defense. Several newspaper reporters will also be placed on the stand to-day.

## RAILROAD TO PUNISH TOWN.

Pennsylvania to Move Station Across River at Connelville.

Connellville, Pa., Nov. 17.—This coke metropolis is now terror stricken over the threatened move of the Pennsylvania Railroad Company to punish it for its treatment of years in refusing to allow the road to have a double track through the town.

It is announced now that the main station of Connelville will be moved across the Youghiogheny River to New Haven, which has within the past few weeks become part of Connelville, but which as New Haven, was more kindly disposed toward the railroad.

For years two tracks have been run by the railroad up to the borough limits of Connelville on both sides, but the borough would not allow the two tracks in the town. Moving the main depot of Connelville out of the town proper is to be the punishment.

## CHURCH TO AID CHORUS GIRLS

Pittsburg Pastor Wants Contributions to Build a Clubhouse.

Would Permit of Dancing and Allow Them to Entertain Gentlemen, but Not Tolerate Drinking.

Pittsburg, Nov. 17.—A clubhouse for chorus girls, including among its many attractive features a place for the girls to dance, and all this arranged and countenanced by church people, is the latest fad in Pittsburg. Rev. Edward Young, pastor of the Second Presbyterian Church, of Pittsburg, is head of the scheme, and to-day said:

"I am heartily in favor of a clubhouse for chorus girls, and I hope to be able to put a proposition along these lines before such people as I believe would be interested in the welfare of the many chorus girls who come to this city. It would be my idea not to make the club so strict along religious lines as to drive away those girls who were really not religiously inclined."

"Of course, I would want an air of religion about the place, but I would not care to have it so absolutely rigid that chorus girls, many of whom have been used to living a different sort of life after show hours, would not feel that they were welcome."

"I would have no drinking about the place, and if the girls felt like dancing, I believe that I should allow them to dance a little, for the time has now come when the religious people must distinguish between the good and bad, and here would be a place to make the distinction."

## ORATOR HEARD BY THOUSANDS

Declares the Possessors of Ill-Gotten Gains No Longer Enjoy Peace. Will Meet Democratic Editors of Indiana To-day and Speak at Banquet in the Evening.

Lafayette, Ind., Nov. 17.—The people of this city paid a notable compliment to William Jennings Bryan to-day and to-night when the Coliseum was filled to overflowing to hear his addresses, entitled "Prince of Peace" and "Missions."

On each occasion more than 3,000 people crowded into the hall and hundreds went away because there was not even standing room.

The speaker said it was a healthy sign of the times when men who had made big fortunes by questionable methods found it increasingly difficult to give their money away. He said some men had spent the best part of their lives trying to get money from other people, thinking it would give them peace, and the rest of their lives trying to prevent others from getting it from them, but in neither case had they found peace.

He declared the day was coming when churches, colleges, and other institutions would no longer sell their respectability to great criminals by helping them spend their ill-gotten gains, but will say to them: "Your money has blood upon it. Keep it and learn how lonesome a man can be when he has only money and neither conscience nor friends when he gets money."

To-morrow Mr. Bryan will confer with the Democratic editors of the State and to-morrow evening will deliver a political speech at a banquet of the Tenth district Democracy.

## ARRANGE LABOR PARADE.

Printers Will Take Part in Demonstration on November 26.

Arrangements have been completed for the labor demonstration here on November 26. Plate Printers' Union, No. 2, met in Grand Army Hall yesterday afternoon and voted unanimously to turn out. The following committee was appointed: Chas. T. Smith, P. J. Ryan, C. E. McClure, F. J. McKenna, William McCauley, Stephen Laut, Edward Genoe, Jesse Watt, Jacob Huck, Edward W. Coontz, and W. D. Leisler, president of the union.

Columbia Typographical Union, No. 101, at its regular meeting in Typographical Temple yesterday afternoon, gave the parade and demonstration its full endorsement, and the printers will be in line. Officers of the union and delegates to the Central Labor Union were appointed as a committee to arrange details.

## BURIED IN SAME GRAVE.

Aged Couple Die Together, Husband's Prayer Being Answered.

Long Branch, N. J., Nov. 17.—The double funeral services of Anna and Mary Dennet, husband and wife for sixty years, and the oldest Methodists living in this section of the State, were held at the Simpson Methodist Episcopal Church this afternoon. The church was crowded to the doors. Rev. Dr. G. L. Dobbins and Rev. John G. Lovell conducted the services.

Mr. Dennet has been a member of the Methodist Episcopal Church for seventy-three years. He was also a choir leader. Mrs. Dennet was a descendant of John Quincy Adams. She united with the church sixty-six years ago. Referring to the wish of Mr. Dennet, that he might die with his wife, an hour afterward, substantially that prayer was answered, for when Mrs. Dennet died Mr. Dennet was practically dead.

"When Mrs. Dennet met with an accident seven weeks ago which resulted in her death, Mr. Dennet was in very good health and promised to be spared many years. Mr. Dennet prayed at the family altar on November 5 that he might die with his wife. An hour afterward, substantially that prayer was answered, for when Mrs. Dennet died Mr. Dennet was practically dead."

## WALSH'S TRIAL IS TO GO ON

District Attorney Declares Immunity Question Cannot Arise.

Auditor Williams, of Southern Indiana Railroad, to Be Examined This Morning.

Chicago, Nov. 17.—"The John R. Walsh trial will not be stopped. The question of immunity cannot arise. The technical objections raised by the defense to the introduction of the books of the Walsh corporation will be overcome easily in court Monday morning."

United States District Attorney Edwin W. Sims made this prediction, following the ruling of Federal Judge Anderson that the government must show that the entries in the books of the Southern Indiana Railroad were contemporaneous with the transfer of money from the Chicago National Bank before he would allow the books to go into the evidence.

When court convenes to-morrow, after the two days of grace allowed by Judge Anderson for the government to reconstruct its procedure, Auditor Williams, of the Southern Indiana Railroad, will be examined by Assistant District Attorney Fletcher Dobyns to bring out the fact that the \$10,000 item transferred by Walsh to the Indiana Southern was entered in the books of the railroad company at the time of the transfer. Auditors of other railroads and corporations mentioned in the indictment will then take the stand to testify to the methods of bookkeeping in their various offices.

With this danger point passed, the government will proceed to bring out, through the testimony of United States Bank Examiner E. P. Moxey, the fact of the constant feeding of the Walsh enterprises from the money of the Chicago National Bank and the substitution of questionable securities in place of the money.

## WEDDING ENJOINED

Writ of Injunction Issued by Georgian Judge.

## FATHER FOILS ELOPEMENT

Admirer of Girl Surrenders Marriage License and Is Permitted to Go from Courtroom Without Giving Bond—Question of Permanent Injunction to Be Decided This Week.

Fitzgerald, Ga., Nov. 17.—For the first time in the legal history of Georgia the writ of injunction has been used to prevent a wedding. Judge Whipple, of the Superior Court of this city, having temporarily enjoined A. L. Reeves, a prominent young business man, from marrying Miss Tina White, daughter of a wealthy merchant.

White objects to his daughter's marriage on account of her age, she being only sixteen years old. At White's instance Reeves was refused a marriage license by officials of this county, but the fiancé went to an adjoining county and secured the necessary permit.

Saturday morning Reeves and Miss White eloped. The father pursued the couple, overtaking them as they were entering the home of a minister who was to marry them.

Secures an Injunction.  
White took his daughter, and Reeves vowed he would have her at any cost. So the father went before Judge Whipple and secured a temporary injunction forbidding Reeves to wed the girl.

The Sheriff brought Reeves before Judge Whipple, who required the admirer to give bond for \$2,000 to obey the injunction. As Reeves was about to make bond, Judge Whipple told the lover that if he would deliver the marriage license to the court he need not make bond. This Reeves did, and was released.

Judge Whipple is to hear argument this week as to whether the injunction shall be made permanent.

## GIVES AWAY \$2,000 ON LINER.

Mrs. Moore Munificent in Gifts and Tips on the Arabic.

New York, Nov. 17.—No ocean liner ever reached port after a fairly good voyage with a more jubilant lot of stokers than the Arabic, of the White Star line, which arrived yesterday from Liverpool and Queenstown. Officers of the crew and not a few of the stokers' exultation, and it was not because any records were broken, either.

Officers and cabin passengers said it was due to the generosity of Mrs. James Amory Moore, a widely known New York woman, who was returning from a tour of Europe. It was estimated that Mrs. Moore had distributed about \$2,000 in charity, presents, and "tips" since last Sunday morning.

## COMES TO PAINT ROOSEVELT.

Miniature Painter Hopes to Get President to Give Him a Sitting.

New York, Nov. 17.—Allyn Williams, president of the Royal Society of Miniature Painting of England, and ranked highest of the artists on ivory in Great Britain, has painted miniatures of His Majesty Edward VII, and Her Majesty Queen Alexandra, for the Guild Hall of London, and has now come to America to paint the miniature of President Roosevelt. It doesn't require a ten-foot canvas to depict all the important points in our President's features, Mr. Williams says. By condensation strength may be made almost transcendent.

## CUBA—THE LAND OF OPPORTUNITY.

General View of the Eastern and Southern Part of Our Land Facing the Macadam Road Leading from Havana to the Town and Bay of Mariel, Part of Mariel Bay in View.

We offer you to-day the opportunity to share in one of the most promising, safest, and most conservative investments of modern times. It's a home venture, the most interesting, the most profitable, the most well-known, representative business men, with whom you come in daily contact.

## OUR LAND

We have secured 1,136.52 acres of the best land in the island of Cuba, of which 1,000 acres will be planted in PINEAPPLES, LEMONS, GRAPEFRUIT, and ORANGES; 200 acres in Pineapples, 200 acres in Lemons, 200 acres in Grapefruit, and 200 acres in Oranges. Our object is to hold, develop, and improve said land and to market the fruit products therefrom for the large profits in the business.

## LOCATION OF LAND

The land is located about thirty-five (35) miles west of the city of Havana, on the north coast of Cuba, in the District of Mariel, Province of Pinar del Rio, Island of Cuba; and is situated upon one of the best macadam roads in the island, which runs from Havana to the town and bay of Mariel. Havana is a most beautiful city, and perhaps has more tourists during the winter than any city in the Western Hemisphere.

## DESCRIPTION OF LAND

The entire 1,136.52-acre tract is beautiful rolling land, excellent, rich soil, well drained, and having three streams of water running through it. No body of land better adapted for the culture of citrus fruits can be found in the island or elsewhere. The photographic view reproduced above shows what a beautiful tract of land we have and the surrounding country.

## CLIMATE OF CUBA

The climate of Cuba is better adapted for the culture of citrus fruits than any other land. Its balmy sunshine climate the year round, with rains occurring at the right time and season of the year most beneficial to such as pineapples, lemons, grapefruit, and oranges. The fruit from Cuba will command a better price on account of its superior quality, and Cuba will become the great fruit garden of the world.

## FREE FROM FROST

Cuba is superior to and far better for citrus fruits than Florida, and even better than California, because of the absence of all danger from frost. In Florida and in sections of California frost often occurs with great damage to fruit trees; but in Cuba, which is located so much farther south, and in a tropical climate, frost and the freezing of fruit trees are unknown.

## HERE'S THE PROPOSITION IN A NUTSHELL

WE will issue and sell five hundred (500) bonds of the face value of six hundred (\$600) dollars each for the purpose of preparing, planting, and cultivating our land in Pineapples, Lemons, Oranges, and Grapefruit. Three hundred of these bonds will be offered the Washington public. Said bonds will bear 6 per cent annual interest, payable semi-annually, and secured by a first mortgage upon all land and property of the company in Cuba.

THE security for bonds is more than ample to guarantee absolute protection to all bondholders. The value of the land with fruit trees and the improvements thereon in three or four years will be from \$1,000 to \$2,000 per acre, at the lowest valuation, which will mean that each bond of \$600 will have proportionately property actually worth from \$2,000 to \$4,000 as security.

BONDS will be sold for all cash, or \$200 cash and \$200 in one and two years, or \$20 cash and \$20 monthly until fully paid for; purchaser will have the privilege to pay up in full or make any number of payments in advance at any time before bonds are fully paid for. The earlier the bonds are paid for in full the sooner will the holders thereof begin to receive the 6 per cent annual interest and to participate in the profits of the company.

ALL bonds have been issued and delivered to the United States Trust Company, of Washington, D. C., as trustee, who will, when paid for in full, immediately assign and deliver to the purchaser or purchasers. Said bonds are secured by a first mortgage given to the United States Trust Company upon all the lands and property of the company situated in Cuba.

THE public is invited to join in the subscription for part of the 500 bonds. Our officers and directors, along with their personal friends, are subscribing for a good part of the bond issue on the same basis and terms as you are offered.

IN addition to the 6 per cent annual interest, each bondholder will be paid out of the net profits of the company from time to time, until each bondholder shall have received the total cash sum of \$600 upon each bond; then, or as soon thereafter as practical, all bonds will be retired and redeemed by the company issuing to each bondholder, in lieu thereof, six hundred (\$600) dollars' worth of the capital stock of the company, full paid and non-assessable, for each bond. No dividends will be declared or paid upon any of the company's capital stock until all bonds have been so retired and redeemed, which will be done at the earliest date possible.

TO protect each and all of our bondholders, the bonds are registered with the United States Trust Company, of Washington, D. C., so that every bondholder will be assured that the bond issue is not more than 500 bonds of \$600 each, as hereinbefore set forth.

## ANNUAL INCOME PER BOND.

Second year after planting income will equal more than \$100.  
Third year after planting income will equal more than \$100.  
Fourth year after planting income will equal more than \$600.  
Second and third years' income from pineapples only.

After the fourth year the annual income will materially increase each year, until each tree will produce anywhere from fifteen to forty boxes of fruit.

## TRANSPORTATION

We have all the advantages of shipment and transportation that can be desired. Being located on the northern coast of the Island of Cuba, and right at the beautiful harbor and bay of Mariel, only thirty-five miles from the city of Havana, with steam and electric lines and a short water route to Havana, we also have a much cheaper freight rate to the fruit markets than Florida and California, and several days shorter time in getting fruit products to market.
